FROM OUR GENERAL MANAGER

Dear Customer:

We are a 100% Colombian capital company born 28 years ago with a single objective: to complement the national housewares market with the best offer in the world and add value to our customers. Today we supply almost 4000 distributors throughout the national territory with products of the most recognized brands of world houseware. We are permanently invited by different governments to get acquainted with best offers in each country and we attend the main Housewares fairs in the world. We are always attentive to global trends and developments in the sector and bring to our country only the best, at the best prices. We offer the most complete catalog of the market with more than 3000 imported products, at competitive prices and with immediate delivery availability. In Alumar we guarantee quality, variety and price. Welcome to Alumar and thanks for choosing us. Our goal is to serve you.

A handwritten signature in black ink, which appears to read 'E. Bernal Villegas', is written over a horizontal line.

FOR SAFER TRADE

WHAT WE DO

28 years
with You

We are a company dedicated to the search, import and commercialization of housewares or products for home use: kitchenware, tableware, home baked goods, refrigerators and hot or cold thermos. Within that branch, we have specialized in glass, stainless steel, plastic, ceramic and porcelain products.

We have 950 meters of storage warehousing and 3,000 meters of distribution warehouses and we have important roads that lead us to all the cities of Colombia with very low freight rates, which allows us to efficiently manage our logistics, commercial and supply processes.

We are distributors of major companies in Venezuela, Brazil, Panama, Turkey, China and India. We also manufacture our own steel, textile and glass brands in Asia. All

our suppliers in the world are leaders in their countries and have the ISO 9001-2015 standard and other high quality standards.

We serve almost 4,000 Colombian distributors directly through 18 vendors who travel with our portfolio 70% of the Colombian geography, except for the jungle area and remote areas of very low population densification.

We are constantly invited by the governments of the different countries to present their table and kitchen offer and we attend all the housewares fairs in the world: The Canton Fair in China, the Hong Kong Fair, the German Environment Fair, the Life Fair+ Style of Bangkok, Asia America Trade Show of Miami, the Gift Brazil Fair and the annual Chicago Fair.

We are certified by COFACE International, which accredits us to attend the large multinationals that require products and promotional gifts of impeccable origin and with a guarantee of quality and service.

PORTFOLIO
